

## Weston St Mary CE Primary Post-OFSTED Action Plan 2017/18

Priority for Development:

5) Assessment

Monitored by: Yvonne Shaw

To develop assessment practice so that it provides accurate information that can be used to inform the planning of activities to meet pupil needs.

5i) To establish accurate, ongoing formative assessment.

5ii) To establish accurate, long term summative assessment.

5iii) To track pupils' attainment and progress to ensure all children make good or better progress. (To meet the detailed success criteria on priority 4.)

Success Criteria:

- a) Assessments across school are consistent and have been moderated externally.
- b) Pupils' starting points have been clearly identified to improved pupil outcomes.
- c) Ongoing formative assessment enables teachers to identify the next steps in skills development that will enable children to make progress.
- d) A summative attainment tracking process informs intervention and evaluation.
- e) 31 of 34 pupils attain their end of year target in reading **8/34 not on track as yet**. This would result in 91% of pupils making progress that is typical to that nationally and 29% of pupils making progress that is well beyond that made typically national.
- f) 29 of 34 pupils attain their end of year target in writing **7/34 not currently on track**. This would result in 85% of pupils making progress that is typical to that nationally and 24% of pupils making progress that is well beyond that made typically nationally.
- g) 30 of 34 pupils attain their end of year target in maths **11/34 not currently on track**. This would result in 88% of pupils making progress that is typical to that nationally and 41% of pupils making progress that is well beyond that made typically national.
- h) 17 of 22 key stage 2 pupils attain their end of year target in GPS. (no national progress to benchmark against.) This would result in 77% of pupils making progress that is typical to that nationally and 36% of pupils making accelerated

	progress.		
<b>Evaluation Outcomes</b>	<p>14.11.17. Much of the above is RAGd red because it is too early in the school year to know whether or not targets are being met. ILB monitoring has taken place but monitoring reports have not been seen by SLT.</p> <p>27.2.18</p> <ul style="list-style-type: none"> <li>• SLT are more confident that assessment is accurate and monitoring shows pupils on track to make or exceed targets. Clear interventions are now set to improve outcomes. From 1.3.18 even greater accuracy of assessment and sharper targeting of support will be in place.</li> <li>• Closing of gaps can be seen within the data and it needs to be recognised that staff have, against many barriers, achieved well for the pupils of this school overall.</li> <li>• In Reading, 3 have exceeded their target in reading at this mid-year stage, 5 in writing and 7 in maths.</li> <li>• In phonics 6/7 have exceeded their targets (matched data). 2 others have entered the year group.</li> </ul>
