Maths

Pupils will consolidate their knowledge on aspects within maths this term to help them prepare for their transition.

Times Tables Rockstars is always encouraged to help pupils consolidate their knowledge on their times tables.

English

In English this term, pupils will be consolidating their knowledge writing effective dialogue, persuasive letter and much more!

Reading is key for writing skills and imagination, it is always appreciated when pupils read at home.

History

Human Rights and Equality

During this term, pupils will learn about the history of human rights and equality in Britain, including key laws and organisations. They will explore the Universal Declaration of Human Rights, the Human Rights Act, children's rights, and how legislation has developed to challenge discrimination and protect people in modern society.

Geography

Globalisation

Pupils will learn about globalisation and how it connects people, businesses and governments worldwide. They will explore how global trade works, its benefits such as sharing ideas and development, and its challenges, including job losses, low wages and environmental impact, considering how globalisation can be made fairer for everyone.

Art

Art in the 20th Century

Pupils will learn about Modernism in art and design, exploring how artists moved away from traditional styles towards abstract and experimental work. They will study influential artists including Picasso, Hepworth and Himid, and consider how art reflects historical events, cultural identity and changes in society over time.

French

Me in the World

In this unit, pupils learn about countries where their studied language is spoken. They explore currencies, flags, cultural traditions, and celebrations. The unit brings together previously learned vocabulary and language skills, helping pupils apply their knowledge in a broader global context while developing cultural awareness and understanding of different communities.

Birch Class
Summer, term 2

WESTON ST MARY CE PRIMARY SCHOOL

Science

Evolution

Pupils will learn about fossils, evolution and inheritance. They will explore how species change over time through adaptation and natural selection, study variation within species, and learn about key scientists such as Charles Darwin and Alfred Wallace, understanding how their work contributed to ideas about evolution and the natural world.

Music

Farewell Tour

This term, pupils will be consolidating their knowledge in different musical styles and exploring how to create music using a variety of musical instruments.

PSHE	RE	PE	Computing
Changing Me This unit explores self-image and body changes during puberty for boys and girls, the importance of physical and emotional wellbeing, and how babies develop from conception to birth. Pupils consider relationships, build positive self-esteem, and identify and manage worries about moving into the next school year confidently.	**Are All People Equal?** This unit explores key philosophical ideas about what it means to be human, focusing on equality, justice, and freedom of religion and belief. Pupils examine organised worldviews and how context shapes experience. They develop critical thinking to consider different perspectives on the question: are all people equal in thoughtful ways.	**Athletics and Swimming** Swimming days are on **Tuesdays.** Please ensure pupils attend school with their swimming kits. PE days are on a **Friday.** Children must have their P.E. kits every day.	**Introduction to spreadsheets** Pupils will learn how to use spreadsheets to organise and analyse data. They will create tables, apply formatting, and use formulas to calculate results. Pupils will also use spreadsheets to plan an event, create charts, and evaluate how effectively their data answers given questions.
